

press release

Achievetec supply the only encryption software for Tablets certified by the UK Government (CESG) up to higher security settings often demanded by Local and Central Government, and are the only reseller to have tested Becrypt to use with the Lenovo Tablet 2 and Lenovo Helix. The two top recommended enterprise Windows OS tablets.

Protect Your Data:

Local government departments are under immense pressure to make and maintain cost savings, and simply cannot afford the potential theft of devices and therefore the information contained within them.

Earlier this month Glasgow City Council was landed with a fine of £150,000 for loss of unencrypted laptops.
